# Importance of Sweating

**Lack of sweating may lead to toxin buildup in the body, which can contribute to various physical and mental discomforts over time.**

5 Types of Toxins to Remove Out from Body	Health Problem
Heavy metals	Alzheimer's disease, Neurasthenia
Cigarette, Secondhand smoke	Asthma, Cancer like lung cancer, throat cancer etc
Household chemicals	Weakened kidneys, Liver cirrhosis, Cancer
Water soluble toxins like medicines, preservatives, herbicides	Cancer like kidney cancer, lung cancer etc
Fat soluble toxins like Insecticides, pesticides and food additives	Cancer like liver cancer etc

# Daily Habits of Modern

## Sedentary Lifestyle

Sitting for long hours with minimal physical activity

## Avoiding Sun Exposure

Rarely spending time outdoors or getting natural sunlight

## Frequent Use of Air-Conditioning

Staying in cold, dry environments for extended periods

## Preference for Cold Drinks

Regularly consuming iced or chilled beverages

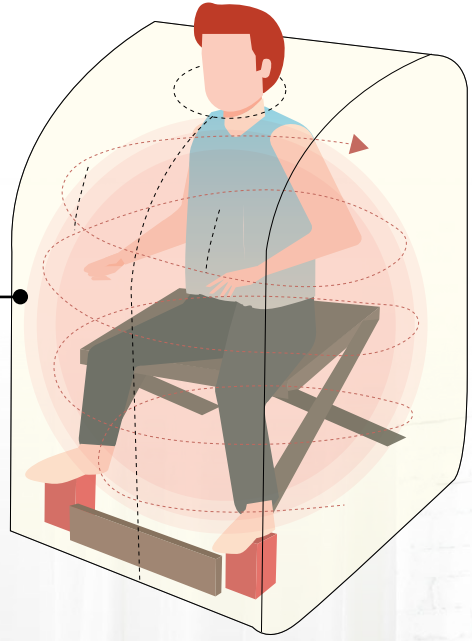

**These habits cause toxins to accumulate easily, making you more likely to fall sick**

**\*\*When was the last time YOU SWEAT?**
